

Highlights

High Availability

Redundancy features, such as hot-swappable power supplies, redundant fan trays, and switch stacking maximise the availability of your network

Lossless Ethernet

Data centre functionality available through Data Center Bridging (DCB) enhances network performance and reliability

Easy Management

Industry-standard management tools allow the switch to be easily administered, integrating seamlessly with existing devices

DXS-3400 Series Top-of-Rack 10 Gigabit Stackable Managed Switches

Features

High Availability and Flexibility

- Two AC/DC hot-swappable power modules for 1+1 redundancy and load sharing
- Three hot-swappable fan trays provide N+1 cooling redundancy
- Physical Stacking via four 10G ports, can stack up to 4 devices
- Ethernet Ring Protection Switching (ERPS)
- Switch Resource Management (SRM) for flexible
 management of system resources

Lossless Ethernet via Data Center Bridging (DCB)

- IEEE 802.1Qbb Priority-based Flow Control (PFC)
- IEEE 802.1Qaz Enhanced Transmission Selection (ETS)
- IEEE 802.1Qau Congestion Notification (CN)

Traffic Monitoring & Bandwidth Control

- Port mirroring/Bandwidth Control
- Broadcast/Multicast/Unicast storm control
- Single Rate Three Color Marker (srTCM)
- Two Rate Three Color Marker (trTCM)

Easy Management

- RJ-45/Mini-USB Console Port
- Management and Alarm Ports
- USB Port for Firmware and Configuration Files
- Easy-to-use Web GUI
- Industry Standard CLI

D-Link's DXS-3400 Series Top-of-Rack 10 Gigabit Stackable Managed Switches consists of new compact, high-performance switches that feature wire speed 10-Gigabit Ethernet switching, routing, and ultra-low latency. The 1U height and high port density make the DXS-3400 Series suitable for enterprise and campus environments where space is at a premium. The DXS-3400 Series switches includes 20 x 10GBASE-T or 20 x 10G SFP+ ports and 4 10GBASE-T/ SFP+ combo ports, making them suitable for data centre, core, and distribution applications.

High Availability and Flexibility

The DXS-3400 Series switches feature a modular fan and power supply design for a high availability architecture. The hot-swappable design means that fans and power supplies can be replaced without affecting switch operation. Physical and virtual switch stacking allow the switches to be managed from a single IP address and provide redundancy for connected devices. The Switch Resource Management (SRM) feature allows the hardware table size to be changed, so that switch functions can be optimised based on the use of the switch. The DXS-3400 Series switches come with 3 modes; IP Mode, LAN Mode and L2 VPN Mode, which modify the size of the Layer 2 and 3 tables for optimum efficiency.

Feature Rich Software

The DXS-3400 Series switches include feature rich software which satisfies the needs of Small Medium Business, Small Medium Enterprise, and campus users. It supports a wide range of Layer 2 and 3 functions such as VLANs, inter-VLAN routing, multicasting, Quality of Service (QoS), Virtual Router Redundancy Protocol (VRRP), Routing Information Protocol (RIP) v1/2, Next Generation RIP (RIPng), Policy-Based Routing (PBR), and security features. The DXS-3400 Series also includes an easy-to-use web interface and an industry standard CLI for improved management.

Lossless Ethernet

Data Center Bridging (DCB) is an essential set of enhancements to Ethernet for networking in data centre environments. The DXS-3400 Series switches support several core components of Data Center Bridging (DCB) such as IEEE 802.1Qbb, IEEE 802.1Qaz, and IEEE 802.1Qau. IEEE 802.1Qbb (Priority-based Flow Control) provides flow control on specific priority to ensure there is no data loss during network congestion. IEEE 802.1Qaz (Enhanced Transmission Selection) manages the allocation of bandwidth amongst different traffic classes. IEEE 802.1Qau (Congestion Notification) provides congestion management for data flows within network domains to avoid congestion.

Energy Efficient

The DXS-3400 Series switches feature front-to-back airflow which facilitates the building of energy-efficient data centres. The front-to-back airflow optimises air circulation inside the rack, allowing hot and cold isles in data centres, increasing energy efficiency in comparison to a mix of front-toback and side-to-side airflow. The switches also feature in-built smart fans; internal heat sensors monitor and detect temperature changes, and react accordingly by utilising different fan speeds for different temperatures. At lower temperatures, the fans will run more slowly, reducing the switch's power consumption and noise.

If the worst should happen to your network you need the very best support and fast. Downtime costs your business money. D-Link Assist maximises your uptime by solving technical problems quickly and effectively. Our highly trained technicians are on standby around the clock, ensuring that award-winning support is only a phone call away.

With a choice of three affordable service offerings covering all D-Link business products, you can select the package that suits you best:

D-Link Assist Gold - for comprehensive 24-hour support

D-Link Assist Gold is perfect for mission-critical environments where maximum uptime is a high priority. It guarantees four hour around-the-clock response. Cover applies 24/7 for every day of the year including holidays.

D-Link Assist Silver - for prompt same-day assistance

D-Link Assist Silver is designed for 'high availability' businesses that require rapid response within regular working hours. It provides a four hour response service Monday to Friday from 8am to 5pm, excluding holidays.

D-Link Assist Bronze - for guaranteed response on the next business day

D-Link Assist Bronze is a highly cost-effective support solution for less critical environments. Response is guaranteed within eight business hours Monday to Friday from 8am to 5pm, excluding holidays.

D-Link Assist can be purchased together with any D-Link business product. So whether you're buying switching, wireless, storage, security or IP Surveillance equipment from D-Link, your peace of mind is guaranteed. D-Link Assist also offers installation and configuration services to get your new hardware working quickly and correctly.

Technical Specifications		
General	DXS-3400-24TC	DXS-3400-24SC
Interfaces	• 20-port 10GBASE-T and 4-port 10GBASE-T/SFP+ Combo Port	• 20-port 10G SFP+ and 4-port 10GBASE-T/SFP+ Combo Port
Console Port	RJ45 and Mini USB console ports for out-of-band CLI management	
Management Port	• 10/100/1000BASE-T RJ-45 Ethernet for out-of-band IP management	
USB Port	• 1 port	
Performance		
Switching Capacity	• 480 Gbps	
Max. Forwarding Rate	• 357.12 Mpps	
Packet Buffer Memory	• 4 MB	
MAC Address Table	Up to 48K entries	
Physical		
Power Input	• 100 to 240 V, 50/60 Hz, 2 A	
Maximum Power Consumption	• 159.8 W	• 118.6 W
Standby Power Consumption	• 85.1 W	• 64.8 W
Heat Dissipation (Max.)	• 557.94 BTU/hr	• 388.39 BTU/hr
Dimensions (W x D x H)	• 441 x 44 x 380 mm (17.32 x 1.73 x 14.96 inches)	
Weight	 7.6 kg (2 PSUs, 3 fan modules) 6.65 kg (1 PSU, 3 fan modules) 5.25 kg (no PSU or fan modules) 	 7.45 kg (2 PSUs, 3 fan modules) 6.5 kg (1 PSU, 3 fan modules) 5.1 kg (no PSU or fan modules)
Operating Temperature	• -5 to 50 ℃ (32 to 113 °F)	
Storage Temperature	• -40 to 70 °C (-40 to 158 °F)	
Operating Humidity	• 0% to 95% RH	
Storage Humidity	• 0% to 95% RH	
Certifications		
Safety	• cUL, CB, CE, CCC, BSMI	
EMI/EMC	CE, FCC, C-Tick, VCCI, BSMI, CCC	

Software Features		
Stackability	 Physical Stacking Up to 80G stacking bandwidth Up to 4 switches in a stack Ring/chain topology support 	 Virtual Stacking/Clustering of up to 32 units Supports D-Link Single IP Management
L2 Features	 MAC Address Table Up to 48K entries Flow Control 802.3x Flow Control when using Full Duplex Back Pressure when using Half Duplex HOL Blocking Prevention Spanning Tree Protocol 802.1D STP 802.1w RSTP 802.1s MSTP Root Guard Loop Guard Jumbo Frame Up to 12KB 	 802.1AX Link Aggregation Max. 32 groups per device, 8 ports per goup ERPS (Ethernet Ring Protection Switching) Port Mirroring Supports One-to-One, Many-to-One Supports Mirroring for Tx/Rx/Both Supports 4 mirroring groups Flow Mirroring Supports Mirroring for Rx VLAN Mirroring L2 Protocol Tunneling Loopback Detection (LBD) iSCSI Awareness
L2 Multicast Features	 MLD Snooping MLD v1/v2 Snooping Supports 256 groups Host-based MLD Snooping Fast Leave Supports 64 static MLD groups MLD Snooping Querier Per VLAN MLD Snooping MLD Proxy Reporting 	 IGMP Snooping IGMP v1/v2/v3 Snooping Supports 512 IGMP groups Supports 64 static IGMP groups Per VLAN IGMP Snooping IGMP Snooping Querier Host-based IGMP Snooping Fast Leave PIM Snooping

Optional Accessories		
DXS-PWR300AC	• 300 W AC modular power supply with front-to-back airflow	
Optional Management Software		
DV-700-N25-LIC	D-View 7 - 25 Node License	
DV-700-N250-LIC	D-View 7 - 250 Node License	
DV-700-P10-LIC	D-View 7 - 10 Probe License	
Optional 100/1000 Mbps SFP Transceivers		
DEM-310GT	• 1000BASE-LX Single-Mode, 10 km	
DEM-311GT	• 1000BASE-SX Multi-mode, 550 m	
DEM-312GT2	• 1000BASE-SX Multi-mode, 2 km	
Optional 10G SFP+ Transceivers		
DEM-431XT	• 10GBASE-SR Multi-Mode, OM1:33M/OM2:82M/OM3:300M (w/o DDM)	
DEM-432XT	• 10GBASE-LR Single-Mode, 10 km (w/o DDM)	
Optional 10G Ethernet Adapter		
DXE-820T	Dual Port 10GBASE-T RJ-45 PCI Express Adapter	
Optional 10G SFP+ Direct Attach Cables		
DEM-CB100S	10G SFP+ to SFP+ 1 m Direct Attach Cable	
DEM-CB300S	• 10G SFP+ to SFP+ 3 m Direct Attach Cable	

 $^1 \mbox{The passive interface feature will be released in software version R2 <math display="inline">^2 \mbox{This}$ will be released in software version R2
