

Shelving and Mounting Rails

Product Information

Product

Description

Part # AR8000

Compaq Mounting Rails

This kit consists of 4 pairs of rails for mounting some Compaq ProLiant Servers, Storage systems, and some Compaq accessories. See [Compatibility Chart](#) to determine Compaq equipment requiring this kit.

Part # AR8001

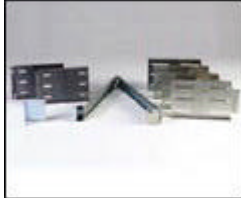

HP NetServer Mounting Rails

This kit consists of 1 pair of mounting rails for mounting HP NetServer Rack Mount Kits. See [Compatibility Chart](#) to determine HP equipment requiring this kit.

Part # AR8002

Part # AR8003

Part # AR8004

Dell Mounting Kit for 4350/6350

Dell Mounting Kit for 4300/6300

Dell Mounting Kit for 2400/2450

These kits consist of mounting hardware required for installing Dell's PowerEdge servers into the NetShelter enclosures. For the 4350 or 6350 server use APC p/n AR8002. For the 4300 or 6300 server use APC p/n AR8003. For the 2400 or 2450 Server use APC p/n AR8004. APC's cable management arm (APC p/n AR8129) is included in AR8002 and AR8003 kits. AR8002, AR8003, and AR8004 also require the Dell provided rack-mount kit. However, when mounting the Dell 2450 server the Dell Provided kit is NOT Required. See [Compatibility Chart](#) for further details.

Part # AR8100

Hardware Kit

This kit contains 32 sets of caged nuts, plastic cup washers and combination slot/Phillips head screws.

Part # AR8105

Monitor Shelf

- The Monitor Shelf is an all purpose shelf designed for light equipment like monitors
- This 2 post mounted shelf is ventilated to allow air flow
- Maximum weight capacity is 50lbs (23kg)
- This shelf is made from 14 gauge steel, is painted APC Grey and measures 17.7" x 16" (45cm x 33cm)
- Compatible with NetShelter Premium and Standard Enclosures

Fixed Shelf

- The Fixed Shelf is an all purpose shelf designed to support equipment which can remain stationary in the enclosure
- This 4 post mounted fixed shelf is ventilated to allow air flow
- The mounting rails are adjustable from 28" (71cm) to 32.75" (83cm) in depth
- Maximum weight capacity is 250lbs (114kg)
- The shelf is made from 13 gauge steel, is painted APC Grey and measures 17.2" x 26" (44cm x 66cm)
- Compatible with NetShelter Premium and Standard Enclosures

Part # AR8123

Standard Duty Sliding Shelf

- The Standard Duty Sliding Shelf is designed for non rack mount equipment that needs to be withdrawn from the enclosure
- This shelf utilizes 1U of equipment mounting space
- The mounting rails are depth adjustable from 27.5" (70 cm) to 32.25" (81.9 cm)
- The shelf can be withdrawn from the enclosure a maximum of 20" (51cm)
- Maximum weight capacity is 100lbs (45kg)
- The shelf is painted APC Grey and measures 16.6" (42cm) x 28.4" (72cm)
- Friction pads are provided to prevent equipment slippage
- Provisions for APC's Cable Management Arm (AR8129) are provided
- Compatible with NetShelter Premium and Standard Enclosures

Part # AR8128

Heavy Duty Sliding Shelf

- The Heavy Duty Sliding Shelf is designed for non rack mount equipment that needs to be withdrawn from the enclosure
- The shelf uses 4 post mounting, takes up 1U of equipment space and includes four (4) retaining clips to hold equipment firmly in place.
- The mounting rails are adjustable from 28" (71cm) to 40" (102cm) in depth
- The shelf can be withdrawn from the enclosure a maximum of 28" (71cm)
- Maximum weight capacity is 185lbs (84kg)
- The shelf is made from 14 gauge steel, is painted APC Grey and measures 17" x 28" (43cm x 71 cm)
- Provisions for APC's Cable Management Arm (AR8129) are provided
- Compatible with NetShelter Premium and Standard Enclosures
